

# Welcome to Catalyst Price & Save<sup>SM</sup>

The smart way to manage your prescription budget is available now!

As consumers, we shop around for almost everything to save money – why not do the same for prescription drugs? Catalyst Price & Save<sup>SM</sup>, your new online drug pricing tool, saves you money by comparing the price of your drugs at local and mail service pharmacies, showing the best value. Unlike other drug pricing tools, Price & Save uses proprietary “compete and compare” technology to identify the lowest priced provider based on your individual prescription benefit plan, enabling you to be a fully-informed consumer.

Price & Save lets you compare:

- Results from low-cost generic programs (“\$4 generic programs”)
- Pricing between multiple retail pharmacies and your mail service pharmacy
- Costs between brand and generic drugs
- Savings with “therapeutic alternatives” (same therapeutic effects as the selected drug, just different active ingredients)
- Out-of-pocket payments based on the pharmacy you choose and calculated against any remaining deductible amount

## **START SAVING TODAY!** Sample savings for commonly used prescriptions:

Health Condition	Brand-name	Cost*	Generic Equivalent	Cost*	Annual Savings**
Depression	Prozac <sup>®</sup> 40 mg	\$344.67	fluoxetine 40 mg	\$4.00	\$4,088.04
High Cholesterol	Zocor <sup>®</sup> 20 mg	\$148.49	simvastatin 20 mg	\$3.85	\$1,735.68

\* All drugs based on 30 day supply/30 capsules or tablets

\*\* Annualized savings calculated by multiplying monthly savings by 12 months

### How To Log On

Visit [www.catalystrx.com](http://www.catalystrx.com). Enter your member ID number and date of birth in the “Members Login” box on the right side of the screen.

Go to “Price & Save,” enter your prescription and let our network of pharmacies compete to provide you with the best price.

### No matter what pharmacy you choose, show your member ID card!

Doing this:

- Allows electronic checks of your prescription history for any dangerous drug interactions
- Applies out-of-pocket expenses towards your deductible
